7.	France	<b>29,500</b>
8.	Italy	<b>25,000</b>
9.	Spain	<b>22,200</b>
10.	Turkey	<b>18,500</b>

### Highlights of 2022

#### New brand appearance

A new brand picturemark enhances the brand's appearance on digital communication channels. The Škoda wordmark will be used more widely. Škoda's new brand identity is currently being introduced in information and communication materials and later **will be rolled out in future models**.

#### Production of MEB batteries

Battery systems for the Volkswagen Group's MEB cars have also been produced in Mladá Boleslav since May 2022. This is the only site outside of Germany to manufacture them. The batteries are used in Škoda, Volkswagen, Audi and SEAT models. Škoda Auto plans to open another assembly line in 2023, increasing the **total capacity to 1,500 batteries per day**.

#### Entry into the Vietnamese market

In cooperation with its local partner, Thanh Cong Motor Vietnam (TC Motor), the Czech carmaker will start offering the first **European models there this year**. The company anticipates an initial sales volume of 30,000 units per year, with the local assembly of the Kushaq and Slavia models launching in 2024.

#### Awards for Škoda cars

Škoda cars are very popular among customers and experts, evidenced by numerous awards. For example, the **Škoda Enyaq Coupé RS iV** won the **Golden Steering Wheel 2022** award in the mid-size SUV category, while the long-time bestseller **Škoda Octavia** won the **Best Cars 2022** in the compact class.
